The Fiber Committee has been in contact with Yocum McColl who has decided to retire from the business and will no longer be doing fiber analysis. The Fiber Committee will be working with Yocum McColl and the company they sold their equipment to see the feasibility for the PBA to continue to have fiber analysis done by them.

Additionally, we will be researching other companies and institutions that currently offer fiber analysis to see which tests are available for fiber analysis for our breed.

Report:

Registrar: Brette Soucie [pbaregistrar@aol.com](mailto:pbaregistrar@aol.com)

Report: 3/31

Thanks to everyone for welcoming me as registrar. I know I have big shoes to fill and will do my best to fulfill all the duties in a timely manner.

I officially took over as registrar on 3/1/2020, though work could not commence until 3/20/2020 due to a rogue box of registrar materials taking a tour of the US.

In this month, as of 4/1/2020, paperwork has been submitted for 11 preregistrations: 7 does, 3 bucks, 1 wether.

Paperwork has been submitted for 57 permanent registrations. Of the permanent registrations 14 have been completed, 8 mailed back due to inadequate fiber samples or pictures, with the remaining awaiting confirmation on fiber type by the amazing Lisa Grzeskowiak. Due to the 'Stay At Home' order I have mailed her the remaining samples.

I also am trying to only go to the post office once a month (for the sake of myself and postal workers), and am hoping all our members have some patience.

Lastly I've been working on filling the spaces on the breed standard committee and am grateful to have Lisa and Terri.

**Report:** 3/30

In the recent past, our PBA shows have been held between July-October of each year. Tentative plans are in place for the Michigan Fiber Festival, Oregon Flock and Fiber Festival and Southeastern Animal Fiber Fair, though it's too early to know if these event-sponsored shows will be held as scheduled, due to possible limits on large gatherings of people. It's fun to mingle with other fiber and Pygora fans, and shows at fairs and fiber festivals are an ideal way to educate non-owners about this breed. However, our goats continue to grow beautiful fleece – so if the regular goat/fleece shows are cancelled, it might still be possible to host regional fleece shows. Regardless, please consider chairing or organizing one in your area! There are lots of helpful links available under the "Shows/Events" tab on the PBA website (<https://www.pba-pygora.org/Shows.html>). I'd be happy to share spreadsheet or other templates to help with show entries and recordkeeping, and can be reached at [fiatluxfibers@hotmail.com](mailto:fiatluxfibers@hotmail.com). In closing, here's a great suggestion from another member – what about holding a fleece show with streaming or archived video!
